

FEDERAL LOGISTICS

## PUT FEDERAL COMPANIES AT EVERY STOP

At Federal Companies, we believe logistics works best when fewer hands are involved. We're an asset-based carrier. Our fleet. Our drivers. Our hands-on team stays involved and at the ready from start to finish. It's our way of eliminating the chaos that often undermines logistics operations, giving you more certainty, fewer surprises, and the kind of reliability (and accountability) that can only come from a single, reputable supplier.

We're flexible too. When your needs change, we don't have to negotiate with third parties or scramble for outside resources. We alone keep your supply chain moving without interruption. It helps having facilities within two hours of Chicago and St. Louis, opening shipping corridors across Illinois, Missouri, the United States, and beyond. Ultimately, it's about coming through for our customers. Whatever your specific needs, we've got you covered, from storage to transportation to final delivery.

## VALUE-ADDED SERVICES

There's more to warehousing than safely securing your goods through facility security and climate control. We go the extra mile with these value-added services, including:

- **QUALITY CONTROL:** Our team carefully inspects receivables for damage and other issues, catching problems before they become costly mistakes.

## **THE FEDERAL WAREHOUSING ADVANTAGE**

What separates a good warehousing partner from a great one? At Federal, it comes down to three things:

### **1: STRATEGIC LOCATIONS**

Location matters in logistics as much as it does in real estate. Our facilities are located to maximize your advantage. We're throughout Illinois in East Peoria, Normal, Champaign, Lindenhurst (Chicagoland), plus outside St. Louis in Hazelwood, MO. Within two hours of both the Chicago and St. Louis transportation and distribution hubs, we can open markets to you across the Midwest, the country, and the world.

### **2: SCALABLE STORAGE SOLUTIONS**

Whether you're a startup or an established enterprise, we accommodate businesses of all sizes with the storage options you need. This kind of flexibility is crucial for managing costs, handling seasonal variations, expanding into new markets, and growing your business.

### **3: EXPERIENCED WAREHOUSE STAFF**

Our dedicated team brings more than a century of combined experience serving customers like you. When you partner with Federal, your warehousing comes expertise, care, and consideration forged from generations of logistics knowledge.

We run LTL and truckload dry van transportation, high-value shipments requiring special care, and dedicated services tailored to your business model. For food manufacturers and processors, we go a step further, transporting ingredients, additives, and packaging in strict compliance with all industry standards and regulations. Navigating the supply chain can be one bumpy ride, but we've been down this road so many times, we know where all the potholes are. Here's what makes the experience with us such a smooth ride:

- **ASSET-BASED CONTROL:** We own and operate our entire fleet, which gives us complete control over scheduling, drop trailers, and driver management. No third-party capacity constraints. No commotion. Just consistent service quality, faster response times, and reliable delivery when you need it most.
- **EXPERIENCE & EXPERTISE:** With decades of transportation experience, our team handles a wide range of commodities and specialized transport requirements with proven expertise.
- **CUSTOMER-CENTRIC APPROACH:** Federal prioritizes building strong partnerships. Our team works closely with you to develop solutions that align with your business goals, not ours.
- **ADVANCED TECHNOLOGY:** We provide real-time tracking, efficient route management, and proactive communications, so you always know where your shipment is and when it will arrive.
